

SecurePay

Information you will need for your application

These handy tips will help you to quickly and easily fill in your online application form.

The SecurePay Online Payments sign-up form requires you to provide the following key business information to complete your application.

- Business Bank account and a copy of your business bank statement
- ABN and business name
- Registered office address (this cannot be a PO BOX)
- Your website address e.g. yoursite.com.au
- Historical and / or expected sales figures, including number of sales, average dollar value of each sale and annual turnover.

Questions you may need to ask your website developer before starting the applications.

- Your shopping cart platform
- Do your systems store, send or monitor credit card transactions? If you are processing payments through your website, this will always be “yes”.
- Do you process payments on behalf of another business?

The SecurePay Online Payments application form allows you to review your application before you submit it, however, if you go back to the first page you will need to start again, so please enter your information carefully.
